Heat Maps | Gateway 1 Note

1. Background | Heat Maps

The heat maps provide an overview of where patients at the hospitals in Worcestershire live.

2. Purpose | Heat Maps

The purpose of the heat maps is to show us where patients live so that we can ensure we engage with all the people in all the relevant areas, not just those that live in Worcestershire.

3. Description | Heat Maps

The heat maps show us where patients who attend each of the three acute hospitals in Worcestershire live and what percentage come from out of county.

4. Outcomes | Heat Maps

An understanding of which areas patients in Worcestershire come from which will help inform patient flow modelling for the future.

5. Out of Scope | Heat Maps

Not applicable.

6. Timescales | Heat Maps

Not applicable.

7. Governance | Heat Maps

Not applicable.

8. Risks and Issues | Heat Maps

Not applicable.
